

# Oklahoma Westie Rescue

## HAPPY ENDINGS - BLAKE NOW SIR BENTLEY BOWEN

This is Sir Bentley (aka Blake) writing to you to let you know that I have found a really great 'fur'ever home. My new Mom and Dad are really fun and like to play ball with me. I have lots of those round things and some of them squeek. They have taken me

to Weokie where those nice ladies give me lots of attention and a cookie (puppy biscuit) and then sometime we go to Lowes and I get to ride in the basket. I have been to Pet Smart several times and always come home with a new ball to play with.

I even met my groomer and I was groomed a couple weeks ago. My groomer (Jules) told Mom I was a really good boy and even wrote that on my report card. I was very good when they worked on my nails. I was left alone at home for the first time last Saturday because it was too hot for me to stay in the car while they grocery shopped and I was really good. They bought me a bench to put in front of the window so I keep a close watch on the house. I love it here.

I have met a lot of the my new family like Aunt Becky. I was at her house and met her babies. One is a huge black lab names Annie and a westie named

Jingles and another strange animal that looked funny and smelled different. I heard someone say it was a CAT. Sure was different.

I have full run of the house during the day but sleep in my cushy crate at night. I hang a lot with Mom in the kitchen where the good stuff is. I really like to eat so they call me a 'Chow Hound', I also get lots of great treats. Now I don't have to worry about not being wanted anymore. I love my new Mom and Dad. Time for my nap before Dad gets home and we go on our looooooong walk. Just wanted you to know how happy I am.

Very Thankful for great home,  
Sir Bentley Bowen
